

Five Knuckle Heavy Weight Swing Clear Series (Reversible)

Swing Clear Hinges create barrier free openings by moving the hinge barrel and door edge out of the way.

- Recommended for use on high frequency and/or heavy wood or metal doors in schools, hospitals or other public buildings where heavy traffic is experienced
- Hinge allows for maximum clearance for passage of beds, tables or other equipment through the doorway
- Meets ADA Requirements and ANSI A117.1-1986
- Pressed steel jambs require no special reinforcing
- Pin is held in place by an NRP set screw, which allows the hinge to be reversible
- For Beveled Edge, where doors are beveled in hinge side, specify T4A4395 or T4A4795
- For available finishes see page 28
